## Check Your Fat

Hold it where it is, or take off some. You can do either without disturbing your meals or your ease or your digestive organs. You can do it without physical risk, mental effort or danger of a wrinkle. "Sounds well, but these are words only," you say. True, but there is a nation full of indorsers of these words, so your protest, while natural, is feeble. Prove it. Write to the Marmola Company, Detroit, Mich., enclosing 75 cents, or, better still, take that amount over to your druggist and get one of the extra large cases of Marmola Prescription Tablets. You will find it generously filled. Take one after meals and at bedtime, and within thirty days you should be losing a pound of fat a day, without disturbance, as we said, of either your meals, habits or organs. Fact is, these statements are not to be denied, for the tablets are an exact duplicate of the famous fat-reducing Marmola Prescription. One-half ounce Marmola Prescription Fluid Extract Cascara Aromatic and 35 ounces Eppermint Water, which any druggist will tell you is the World's Fair medal winner in its class.

## Luke Wins Again

Marsh Must Pay Commission.

HE SUED AND WAS SUED.

The Merchants' Protective Association won its second suit against W. H. Marsh in Judge Armstrong's court yesterday afternoon. The allegation of the company was that Marsh gave it a bill of \$261 to collect; that later the man who owed the account paid Marsh \$100, and still later, the balance. The company sued to recover 50 per cent of the first amount and was awarded it. The suit decided yesterday was the recovery of one-half of the \$151 as collection fees—Salt Lake Telegram, February 10, 1909.

The next twenty-four hours Salt Lake is going to have a bit of real cold. The winds Wednesday after-  
noon were swift and biting and carried  
a heavy snow. At sunset the wind went  
down and it was cold and clear. Only in  
the morning a heavy thunderstorm made  
itself felt, but it was soon dispelled,  
and the afternoon soon dispelled  
itself.

The storm center moved to the east  
and the winds and thunderstorms in  
the mountains, causing rain and  
over portions of California, Mon-  
tana, Nevada, Utah and Wash-  
ington. Another storm extended over the  
Pacific region and New England, pro-  
ducing rain and snow quite generally  
over the Mississippi and high winds  
over the Atlantic. The barometric pressure  
was causing fair, cold weather as far  
west as the Rocky mountains, and  
as far east as New Orleans.

January 1, 1909, was as follows:
